IEEE-RITA (Latin-America Learning Technologies Journal)

The IEEE TRANSACTIONS ON EDUCATION is pleased to announce the publication of the eighth edition of IEEE-RITA (ISSN 1932-8540), an electronic journal issued by the Spanish Chapter of the IEEE Education Society through the Chapter's Technical Committee of Accreditation and Evaluation (CTAE). The publication is supported by the Spanish Ministry of Science and Innovation through complementary action TSI 2007-30679-E. The publication is electronic and is published in Spanish and Portuguese, with abstracts and index in English.

This is the third issue of Volume 4 (2009), now that the publication is appearing at its permanent frequency of four issues per year.

IEEE-RITA was approved by the Administrative Committee of the IEEE Education Society in its meeting of June 19, 2006 as a pilot: (a) to demonstrate new ways of providing information and knowledge to non-English readers; and (b) to collect data on potential reading interest. The approval of the IEEE Technical Activities Board and of the IEEE Publication, Services and Products Board is pending.

The publication can be found at <http://webs.uvigo.es/cese/RITA/en/>
