

Electrical and Computer Engineering Department

I

The Coordinator of the Master on Information and Communication Electronic Systems of the Spanish University of Distance Education (UNED) and the R&D Advisor of the IGFoton Ingenieros Company,

Declare that

since 2012 our research and teaching innovation groups collaborate in learning innovation and management as well as in research projects related to the topics of the Master and the education activities of the IGFoton Ingenieros Company, as well as in maintenance, research and installation of renewable energies and electronic power elements.

Madrid, 15th of January 2015

Clara Perez Molina
Coordinator

Master on Information and
Communication Electronic
Systems of UNED

Rafael Jimenez Castañeda
R&D Advisor
IGFoton Ingenieros Company
