

The Coordinator of the Master on Information and Communication Electronic Systems of the Spanish University of Distance Education (UNED) and the Coordinator of the Master in Telecommunication Engineering (Máster en Enxeñaría de Telecomunicación) at Universidade de Vigo (University of Vigo, Spain),

Declare that

since 2014, our research and teaching innovation groups collaborate in learning innovation and management as well as in research projects related to the topics of both Master degrees.

January 15th, 2015
